FOURTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, NOV. 19, 1903.

No. 47

## UNDER THE CAR WHEELS.

Ernest Craig Crushed and Mangled in the Earlinton Yards Yesterday.

WAS CAR INSPECTOR AT THIS PLACE

Yesterday morning about 10 o'clock while standing on the side track near the Hecla mine in conversation with Mr. Rootz, Car Inspector Ernest Craig was struck in the back and knocked down, unfortunately falling inside the rail. The wheels of one truck passed over both limbs being between the knee and ankle, mashing the beam caught him in the chest, rolling him over and injuring him internally. He was rescued as soon as possible and removed to the St. Bernard hospital, where Drs. Chatten, Sisk and Johnson dressed his wounds. Mr. Craig died about 2:30 o'clock P. M. in the presence of his wife and children.

No blame is attached to the yard crew or anyone connected with the railroad company. It was one of those unfortunate accidents which occur from time to time in railroad life.

### SCHOOL GIRL WEDDING

Said to have been Real Cute—Prof. Deere an Uninvited Guest.

There was a wedding at the school building last Wednesday. Miss Georgia Watt was the bride, Miss Blanche Edmondson the groom, Miss Sadie Stokes performed the ceremony "in her usual impressive manner," Miss Virginia Rule played the wedding march, Miss Edith Rootz was best man, and the Lord only knows who was the best woman. It was a "ring" wedding and while the gallant groom was placing the circlet of gold on the slender finger of the bride and the witnesses sobbing audibly Prof. Deere came unexpectedly on the scene and broke up the wedding. The girls say it was the cutest thing that ever happened.

Improvement in the Office of the Cumberland Telephone Company.

Since Mr. J. Y. Montague has been manager of the Cumberland Telephone office at this place he has made many and needed improvements in the appearance of the office. As to the service it could not be improved upon, as we have in the day operator, Miss Lizzie Dean, one of the best operators in the employ of the company and one who is always pleasant, accommodating and obliging. Mr. Montague has recently repainted the entire office, rearranged the furniture and in many other ways made it bright, clean and cheerful. He believes in having a place and everything in its place and is undoubtedly one of the best managers Earlinton has ever had.

Extracts from the "Bachelor's Club."

Ah! villain! I have thee now. Out ye dogs, curse ye.

Oh, dear Tiptoe, shall I be dead? Shall I? Oh, goody, goody.

"She meets me at the door, 'Sing,' she howled, 'sing, will you, then you shall dance, too,' and then, friends, for one long, wretched hour I had to dance the can-can.

Oh, we are henpecked husbands. We are battered, stiff and sore; Oh, we are henpecked husbands.

What need we tell you more?

The German emperor has complied with the request of the Chinese government to permit eight Chinese officers to enter the German army for purposes of study.

INTEREST CONSTANTLY INCREASING.  
Kentucky Exhibit Association Commended for its Efforts in Making Possible the State's Representation at the World's Fair.

As 1904 approaches—the year in which the greatest of all expositions will commemorate the purchase of the Louisiana Territory from France—citizens in all parts of Kentucky are showing greater enthusiasm over the certainty that Kentucky will not only have a State Building at this World's Fair in St. Louis, but will be represented in every department of the big show by exhibits of her products and resources and industries that can mark the dawn of a new era for development of all the hidden wealth of the commonwealth.

Not a day passes but that the mails carry to the Kentucky Exhibit Association in Louisville—the organization which has made possible the representation of the state at this exposition—letters from public spirited citizens who express deep gratification over the progress that has been made. Everywhere there is a feeling that the World's Fair of 1904 holds for Kentucky an opportunity to show "her wares" to the rest of mankind in a way never before presented and the efforts of the Exhibit Association to grasp this chance is roundly applauded.

It seems that for once Kentuckians are a unit on one proposition, and that the representation of the state at the St. Louis exposition. Those who have visited the grounds at St. Louis this year from Kentucky have looked with pride on the "New Kentucky Home" rearing its head among the massive places of that wonderful "White City" and turned away with no regret for the aid they have extended the Association, knowing full well that the old state is at last to take rank where she rightly belongs in the procession of states before the whole world next year.

The Kentucky Building is rapidly nearing completion. Two payments of \$5,000 each have already been made on it, and the third of \$7,000 will be made within the next ten days. No one has seen the structure without taking off his hat to the enterprise of the citizens who have contributed to its erection.

And this building is to be only a small part of the big advancement to be given the state at the great Fair. The different exhibit committees have been working constantly to make their departments successes. It may be announced now without fear of successful contradiction that Kentucky's displays of minerals, agriculture, horticulture, forestry, education, tobacco, etc., etc., will equal any made at the exposition.

When it is considered that there are no paid commissioners connected with the Exhibit Association—every man giving his time and money to carry the work forward—all the commendation bestowed upon the Association is richly deserved. No wonder then the people from all counties are so anxious to see what has been so well begun carried through to a glorious success.

Major Crumbaugh.

Major S. R. Crumbaugh, formerly of Hopkins county, but for several years United States Supervising Inspector of Steam-boats at Cincinnati, is tipped for the presidency of the University of Cincinnati. He was at one time president of the South Kentucky College.

## STORE IS BROKEN INTO.

Thieves Make Way With \$150 Worth of Robinson's Goods.

### MYSTERY HOW IT WAS DONE.

Sometime during Friday night or Saturday morning the store of J. W. Robinson was burglarized and over one hundred and fifty dollars worth of goods and money taken. Mr. Robinson thinks there were three men or boys concerned in the robbery and that one of them must have been locked up in the store Friday evening at closing time or that some one had a key that would open the front door. Several pairs of fine shoes are missing and in each lot six pairs of different sizes were taken, ten dollars in money was also taken besides articles of gents furnishing goods. Every effort is being made to obtain some clew as to the identity of the burglars. Police Benton heard a noise while passing the store as if a box fell from the shelf and went to the rear of the store on two different occasions but could see no one in there. He also watched at the front door for some time but saw nothing suspicious, if there was any one in the store at the time they were evidently hidden behind the counters.

### Sunlight Flinch Club.

A number of Earlinton ladies met at the residence of Mrs. E. A. Chatten, on Main street, Friday and organized a flinch club to be known as the "Sunlight Flinch Club." The question of playing for prizes was discussed. Some were for and some against the prizes, and it was finally decided to leave it with the hostess at the place of meeting each week. She could put up a small prize or serve refreshments, just as she chooses. The club will meet with its members alphabetically, beginning with Mrs. H. L. Browning. It is one of the rules of the club that the members shall in no way discuss or comment on a member who is absent.

### Whiskey vs. Sense.

There was a time when men of sense fooled with whiskey, but they are gradually quitting it. No respectable man of good sense can afford to use whiskey habitually. Actors were formerly addicted to the drink habit. They have quit it to a great extent. It has been discovered that an actor who is temperate and takes care of himself receives a higher salary and more applause than one who, though he may be a better actor, has clouded his mind and burned his brain with fire water.

Whiskey has been tried at the bar of reason, it has been weighed in the balance and found wanting, it has been condemned by every man of understanding. But it seems to be growing in favor with the mentally unfortunate and degenerate. When a man is down in the world and there is utterly no hope of his ever returning to the paths of respectability, he drinks to drown his disgrace and by so doing succeeds in calling renewed attention to it. If the man who drinks could only be induced to stop he would be surprised at the number of helping hands there would be extended to assist him and at the encouragement sober men would give him.

T. K. Orr, secretary and treasurer of the American Poultry Association has been appointed superintendent of poultry at the World's Fair.

### HAVE YOU FORGOTTEN?

BLUE G. BARD.

Have you forgotten the old time? When you and I were young, The happy walks we used to take, The tender songs we sung?

Have you forgotten that summer eve? When I held your hand in mine, When the lovelight glistened in your eye?

And my arm about you twined?

Have you forgotten the vows we spoke?

How we talked of our future bright, As we sat on the seat by the silver lake?

Bathed in the moon's pure light?

Al! that was long ago, sweetheart, And oft when alone I dream,

We are living that time over again.

And things are not what they seem.

And I would go to that same old seat,

As you and I did then,

And, looking across the stretch of years,

Wonder what your life has been.

Boys and Girls Have a Spelling Match.

Miss Minnie Bourland gave the scholars in her room a spelling match Friday afternoon. There were about twenty-five on a side. Roy Davis was champion on the other. Most all of the children spelled well and at the end of the four pages of spelling seventeen remained standing. Then began the tug of war for the words were then given promiscuously from different parts of the book and the spellers began to fall right and left until only one was left. The hero of the day was Harry Blackwell who was on Hazel's side. George Arnold, Marvin Mitchell and Goldie Henife were the last to take their seats on the opposite side. Altho' this room is considerably crowded one is forcibly struck with the absence of paper and other litter on the floor and at the quietness with which the children enter or leave their seats. It necessarily took quite a good deal of training on the part of the teacher and cheerful and ready obedience on the part of the children to arrive at this state of perfection.

COL. TOOMBS AND MEN

Have an Exciting Time Trying to Stop a Runaway Car.

While working at the new opening Monday Col. Albert Toombs and his men let a car of ties get away from them. The car had a defective brake and could not be stopped. The men chased it several hundred yards putting rails, planks, logs and other things under the wheels but the car gained speed and when it struck the main track was going at a high rate of speed. The coal train, engine and caboose was standing on the main track near the Arnold switch and when this car came tearing down the siding, the men in the caboose hastily made their escape and took to the woods. It is reported that engineer Jack Sullivan made a flying leap through the car window and struck the ground running. The caboose and car were both badly damaged.

## THE BACHELORS' CLUB.

A Laughable Play Composed Entirely of Home Talent Will Be Given at Temple Theatre Friday Night, Nov. 20.

### FOR BENEFIT OF PUBLIC SCHOOL

The Bachelors' Club will give an entertainment at Temple Theatre tomorrow night that will far surpass anything before attempted in the way of fun and laughter by home talent. The plot of the play is:

A number of well known men about town meet at the room of one Watson, the leader of the set, and initiate two candidates in a ludicrous manner. The candidates are blindfolded and after swearing to avoid earthly angels and experience Heavenly bliss, are started on their journey through a long canvas sack open at both ends, and as a matter of course, meet half way, neither being able to pass the other. Thus here comes an indescribable funny scene, and one that will be immensely enjoyed by the audience. The candidates faint from suffocation and the jolly bachelors are so badly frightened at the result of their trick they summon a physician. This physician turns out to be a crank and his most pronounced idiosyncrasy is the subject of suicide. While he is discouraging his favorite hobby the poor, dilapidated, henpecked husbands appear on the scene and from that time until the curtain drops the play is exquisitely ridiculous.

The following gentlemen will take part in the play: Frank D. Rash, W. C. McLeod, H. L. Browning, A. O. Sisk, H. D. Cowan, Brick Southworth, Jas. C. Moreland, Henry Rogers, John L. Long, F. W. Clark, L. B. Baynham, David Cowell and Jas. E. Fawcett.

This play is given for a good and worthy purpose, a purpose that will either directly or indirectly benefit every one in Earlinton and Temple Theatre and be filled to its utmost capacity on Friday night. Prices of admission will be 25 and 35 cents.

Roosevelt Enjoyed the Joke.

President Roosevelt likes a joke, even if it is one which touches a tender spot. Last night, with Mrs. and Miss Roosevelt, he occupied a box at the National Theatre to hear Fritz Schaff score a great success in "Barberette." One of the lines ran as follows:

"What a diplomat steal? A diplomat never steals. He only annexes."

The entire audience turned toward the President's box and joined in a shout of laughter. The President laughed as heartily as anyone and waved his hand in glee at Senator Hanna, who was in another box. It was some minutes before the singers could go on with the opera.—Walter Wellman's Washington Letter in Chicago Record-Herald.

Notice.

I am agent for the Monarch Book Company, of Chicago, Ill., one of the largest and best concerns in the country. I can supply you with any book you want including children's Holiday and Pictorial books. "Easy Steps for Little Feet" is a book that should be in every home in Earlinton where there are children. If you wish to purchase a book for your children or for the Holidays drop a card in the Post office and I will call on you.

Respectfully,  
Mrs. J. B. LUMPS, Agent.

### ARM DISLOCATED.

Chester Browning Meets with a Painful Accident Friday Evening.

Friday afternoon about five o'clock while Chester Browning was feeding a corn shredder on the St. Bernard farm his arm was in some manner caught in the shredder and dislocated. His wrist was also thrown out of place and badly bruised. As soon as possible he was removed to the St. Bernard hospital and his wounds dressed by Drs. Chatten, Sisk and Johnson and he was removed to his home. The injury while painful is not serious and it is expected he will be out again in a few days.

### The Bee's Special Edition.

The Coal and Railroad Edition of THE BEE will surely be out on Nov. 26, Thanksgiving day, and all who get a copy will have something to be thankful for. This edition contains a great deal of interesting reading matter, the lives of over 100 railroad men on the Henderson division and much interesting and valuable information regarding the coal history of the Western Kentucky coal fields and early days of railroading on what is now the Henderson Division of the L. & N. This work has been gotten up at a great deal of expense and labor and we feel sure that the readers of THE BEE will appreciate it.

### Gun Club Shoot.

The following is the score out of 25 targets Thursday:

Chatten	22
Taylor	20
Seargent	19
Robinson	17
Ligon	16
Martin	16
Johnson	15
Bourland	13
Peyton	9
Dr. Chatten	the medal.

### A SUGGESTION.

Union Thanksgiving Services on Next Thursday.

THE BEE offers the following suggestion for a union Thanksgiving service: That the opera house be selected and a union service be held there next Thursday. That all the merchants and places of business from 10:30 a. m., to 1 o'clock p. m., in order to give every one possible an opportunity to attend Thanksgiving service.

### Broken Arm and Fever.

Elizabeth, little daughter of Mr. and Mrs. M. B. Long, was found Sunday to have a broken arm, while confined to bed with a light case of scarlet fever. She had fallen on her arm a day or two before but that member showed no sign of injury until Sunday, when it was set and bandaged by Dr. Johnson.

### Kind Words and Noble Deeds.

As the song of the bird lives on and on in the life of someone who has heard it, so it is with kind words and noble deeds. There is always some heart that needs comforting, some weary soul that will eagerly receive your kind and gentle words and weave them as golden threads in the sombre warp of their sad lives. Be not miserly with words of commendation and comfort and never lose an opportunity of doing unostentatiously a good deed, for in the hereafter, when you and I have crossed the Eternal Divide, their memory will live and the good seeds we are sowing now will continue to bear fruit in the years to come.

"The Professor's Love Story" which Harry Beresford will present at Madison's Theatre on Dec. 1, is a bright, light, agreeable comedy of the day and hour, with a laugh every minute, a tear or two, enough tension to make you respect yourself for your feelings and susceptibility, pretty women, lovely dresses, quick action, crisp dialogue, and above all presented by a company of efficient players. The staging environments we are told will be particularly realistic and noteworthy. As Prof. Goodwillie, the gentle, forgetful old scientist, who falls in love without knowing it, Mr. Beresford is said to give us a characterization that really stamps his work with the mark of genius.

#### Drink a Disease Breeder.

Portland, Me., Evening Express, Oct. 12, says liquor as the arch enemy of health and the greatest curse of society:

"Whatever may be the difference of opinion regarding the medicinal use and the food value of alcohol among physicians and scientific men, there is unanimity in relation to its far reaching baneful effects when used as a beverage. Physicians come into close relations with all classes of people, know intimately their inner home life and the consensus of the profession declares that at least one-half the poverty, vice and crime that is daily disease are due either directly or indirectly, to intemperance. The experience of life insurance companies has taught them that the so-called 'moderate drinker' is a very rare specimen and in self defense the companies have instructed their medical examiners to look with grave suspicion on those making this claim. Alcohol is a poison which attacks the nerve cells of the higher cerebral centers, causing a weakening of will power and a blunted moral sense.

"While in certain forms alcoholism is undoubtedly a disease, yet such is not its effect and habit contributing very largely to swell the mortality rates. If diseases are arranged according to what is called 'the sin percentage' we find that the venereal diseases head the list, that alcoholism is third and insanity fourth, and the remarkable thing about them is that they are all closely related, and the drunkenness is an important contributory cause of them all. Under the classification of 'the sin percentage' of deaths, alcoholism is eighth on the list, being preceded by seven diseases to which it is an important contributory cause, and followed by six others in which it is an important factor, the balance against the patient by reason of the debility which it causes. An important preceding cause of suicide, insanity and murder is intemperance and it is an important contributory cause to deaths from apoplexy, tuberculosis, pneumonia, Bright's dis-

ease and the many diseases of the nervous system. The habitual drunkard has a debilitated nervous system bankrupt in vital energy and lacking that stamina and reserve force which is the chief dependence in fighting disease. Alcohol is a poison which, circulating in the blood, produces a destructive action on every tissue cell, but it exerts a selective influence upon the nerve cell, destroying the essential elements, the nuclei, and impairing the function and nutrition of the whole nervous apparatus. That is bad enough, but the effects of alcohol are much more far reaching, for the offspring of the intemperate inherit a degenerate and unstable nervous system which renders them especially liable to the attacks of disease, and to a fatal issue when so attacked, and while further handicaps them in their race, it by blunting the intellectual faculties and in a moral sense, so that a large proportion of them become drunkards, paupers or criminals.

"The resources of preventive medicine, scientifically applied, are sufficient to eradicate many of the worst diseases and to much reduce the ravages of all. These means cannot be successfully applied without the support and co-operation of all the people. There is no more important reform than taking proper measures to reduce the death rate and in its furtherance the reduction of the drunk habit is a most important factor. Inspection of our almshouses, asylums, hospitals and prisons will convince the most skeptical that intemperance in its many ramifications and its far reaching results is one of the worst curses that afflicts civilization."

#### Victims of Whiskey.

(Chicago American, Sept. 30.)

Five little children and their mother, Mrs. Bertina De Simini, 250 West Sixteenth street, have had no food for two days. They are barefooted and have scarcely enough clothing to keep them warm at night.

Yesterday the landlord called for

the rent—eight dollars—for the three little rooms occupied by the family. The landlord went away without his money—there was not enough in the house to even buy bread.

"We have always been poor," said Mrs. De Simini yesterday, "but I was able to make both ends meet until a year ago, when my husband lost his position and began to drink. After this he secured work at intervals, but instead of bringing home the money, he would spend it at the saloon and come home drunk. Late at night he has not been able to secure employment. I made the pennies go as far as they could and managed to feed the children until two days ago. Since then we have had nothing to eat."

Boston, Mass., Oct. 27.—Louis Brandt was slain by some one after a quarrel in a saloon in Faneuil Hall Square.

Akron, O., Oct. 8.—In a drunken fight here last evening, Joseph Rothrock of this city, shot and wounded John Holley, of Barberton.

Cherryville, Kan., Oct. 8.—A free

for all fight in a saloon last night,

in which Dr. and Mrs. J. G. Smith

were the principal participants, may

result in a divorce case.

Topeka, Kas., Oct. 20.—Will Mason and Thomas De Moss procured a lively rig from Tuthers' barn. They drove the horse furiously, and, returning to the barn, were chided by Fred Tuthers, who said: "Boys, why did you drive the horse so hard?" The men cursed Tuthers, made a few threats, and then shot him. He lived only a few hours. Excuse was they were drinking.

Brookhaven, Wis., Oct. 25.—Richard Rushing, who had been hanging around the city for several days drinking, went into Dantoni's shop and without any known provocation, threw his six shooter into the face of Mrs. Dantoni. Officer J. Forsythe interfered and was shot dead, his own ball killing Rushing.

Boston, Mass., Oct. 25.—A 12-year-old boy was found on Sunday night, Lynn, about 11 o'clock, last night, in a hopeless state of intoxication, staggering through the street and falling frequently. He was sent to the station, and thence to the Lynn Hospital, where the doctors said his chances of recovery were small.

(Chicago Chronicle, Oct. 16.)

"I killed her because I loved her."

It is not the first time nor the hun-

dredth time a man has said it when he has killed the woman he loved.

In Judge Clifford's court yesterday

it was the biggest temperance sermon ever preached.

John Pavlik said it. Last June, in their home on Loomis street, he killed his wife Mary. Their 17-year-old son, Jim, witnessed the deed and called the police.

It was a crime which for cold-bloodedness and grewsomeness is second to none. Pavlik was a notorious drunkard. That alone often makes a murderer. What was worse, he was jealous of his own son, who is 32 years of age and somewhat like his father.

There is a tragedy bigger than words can tell in that. "Somewhat like his father" carried a meaning as horrible as it is common. It is the fearful stain of inherited criminal tendencies. That 32-year-old son may some day commit the same sort of a crime his father did. At least that is what the neighbors and the son's wife say.

Providence, R. I., Oct. 15.—Peter Meloison was murdered at or near a house in the 1100 block of Smith Avenue last night. The autopsy yesterday indicated that he was strangled after being knocked senseless by a blow on the head. Peter J. McCleroy, proprietor of a saloon on Smith street, gave the police their clew. He told them that three Armenians drank beer in his saloon last night.

THURSDAY, NOV. 19, 1903.

The Pictorial Edition of the Grayson County Gazette is a very handsome edition and contains an unusual array of strictly local business write-ups.

Can there be an educational qualification law for voters passed by the Legislature without holding an election for a constitutional amendment on the subject?

HARRY SOMMERS, editor and publisher of the Elizabethtown News, is publishing a book entitled "In Three Continents" which is expected to issue from the press about the middle of December. It is said to be written in his own straightforward and interesting style, and to record the chief things of interest in a trip abroad made by the author in the early months of this year. His many friends are anticipating a treat.

It is proposed to bridle the power of the Ohio river that has wasted at the Louisville falls since power became a factor in West bound life and civilization. According to published statements, that great end is believed by scientists to be a possibility of the near future, and the falls of the Ohio at our State metropolis will furnish power to great manufactures and electric city and suburban lines. This has been hoped for for many years and whether the present ideas are feasible remains to be developed.

The announced wedding for the New Year of Mr. W. Q. Adams, publisher of the Owensboro Inquirer, and Miss Grace Tinder, of Madisonville, is bringing a hearty round of well deserved congratulations and applause from the newspaper boys of the State. Mr. Adams is one of the best newspaper men and best fellows in Kentucky and deserves all the happiness that can come to him in the high estate of matrimony.

The American Federation of Labor, in national convention assembled at Boston last week did some notable things, but adjourned without acting upon two hundred and forty of the resolutions offered during the six days session. In fact only about forty resolutions were acted upon. The Federation objected seriously to the employment of Chinese and Japanese as laundry workers in the Navy Department and proposes to get those jobs for naturalized unionists. Another weighty action of the convention was to declare it an outrage for railroads to require the signatures of purchasers on excursion tickets sold at reduced rates. And here was a master stroke for a ticket scalpers' union. The Executive Council of that organization was, furthermore, directed to endeavor to have the tobacco workers of the South organized. It is not announced whether they will begin in the factories this winter or wait until the workers go out to grow a new crop next year. Until the movement takes definite shape there will still be chewing and smoking tobacco within reach.

## The Negro Vote in Kentucky.

The suggestion that the "negro question" be solved in Kentucky by enacting an educational qualification for voters, makes it interesting to know exactly how such a law would affect the whole voting population. An educational qualification would, of course, have to apply to all voters alike. According to the census of 1900, there were 543,996 males of voting age in Kentucky. Of these 469,209 were white and 74,782 were negroes. According to the decennial rate of increase between 1890 and 1900 the total number of males of voting age now would be 568,475. Of these 400,320 are white and 78,000 are negroes.

There were in 1900 65,517 white illiterates of voting age, and 36,990 negro illiterates of voting age. The increase since then is not material, the whites now being about 68,000, and the negroes about 38,000. Of course, the number of illiterates who do not vote is large, and is perhaps reasonable to assume that at least 50 per cent. of the illiterates of both races do not vote. An educational qualification would leave about 422,000 white of voting age and about 40,000 negroes of voting age.

It is a curious fact that, while the total population of Kentucky shows one negro for every 61 white persons, the ratio of negro to white voters 1 to 74. In the recent election in the cities and towns the negro vote was well divided. Thousands did not vote at all, in fact, and yet their names were voted for them by hired repeaters of their own race, just as the names of white voters were so voted. It is not probable that 30,000 negro votes were actually cast in the whole State, and these were not all on the Republican side, simply because no national issues were involved.

The "negro question" will not be solved by an educational qualification that will leave the franchise in the hands of 40,000 negro voters. As a practical question of race prejudice, 40,000 black voters are quite as objectionable as 80,000 black voters. The protest is not against negro ignorance; the protest is a racial one, founded upon color and preexisting class conditions and prejudices. The ignorance and degradation of negro voters are, of course, much greater in proportion to their numbers than among white voters, but the elimination of both these will not remove the final prejudice of race.

It is interesting, also, to inquire whether an educational qualification can be constitutionally adopted. The Constitution, under the head of "Suffrage and Elections," says:

Every male citizen of the United States of the age of twenty-one years, who has resided in the State one year, and in the county six months, and in the precinct in which he offers to vote sixty days next preceding the election, shall be a voter in said precinct and not elsewhere.

Felons, prisoners, idiots and insane persons are then excepted

specifically, and the following sections provide that laws shall be enacted by which persons "illiterate, blind and in any way disabled may have their ballots marked" for the purpose of voting by secret ballot. Thus it was specially provided that illiterates should vote if they wanted to, and even encouraged and assisted to vote, and this would seem to prohibit the adoption of an educational qualification except by amendment to the Constitution. This could, doubtless, easily be carried.

Whether this will be the programme of the coming General Assembly is not clear. But that some measure to disfranchise as much as possible of the negro vote will be adopted, there is no doubt. It will not, however, solve the "negro question." As long as a thousand of them can vote it will be used by agitators and demagogues to further their purposes.—Louisville Herald.

## Climatic Cures.

The influence of climatic conditions in the cure of consumption is very much overestimated. The patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and to the use of German Syrup. Free expectation in the morning is made certain by German Syrup, so is a good night's rest and the absence of aches and pains. The debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest dangers of consumption, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warm climate you will find that the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular sizes, 75c.

## New Boat for Green River.

Mr. E. B. Hackett, a prominent merchant of Maysville, Ky., was a sufferer for years from constipation, and was unable to get relief until he tried Dr. Carlstedt's German Liver Powder. He gave it a single trial, when he began to feel the effects of the medicine. He was so pleased with the result that he continued to use it, and found it was surprised to find himself cured of a disease which had plagued him for so long. He is a well man and does not use any medicine now, but still takes Dr. Carlstedt's German Liver Powder. It will cost you only 25 cents, and should be packed in a small bottle. Send a dollar to Dr. Carlstedt, and he will send you a trial.

MORMONS ARE STILL PRACTICING  
POLYGAMY

Editor of Mormon Paper so Testifies  
Under Oath.

Salt Lake City, Utah, Nov. 14.—Polygamy in one form is being practiced continually with the sanction of the Mormon church, according to the sworn testimony of one of its members, the son of a woman who claimed a share in the estates of two husbands.

Elder Charles W. Penrose, editor of the church organ, the *Deseret News*, on the stand declared "celestial marriages" are being performed daily by church authorities and that marital relations under these are not considered unlawful. According to his version of the laws of the church, there are three forms of marriage. The first is for both life on earth and the second for life on earth and ceasing with death, and the third is "sealing for eternity."

According to the teaching of the church, a person may be sealed to one mate for time and to another for eternity. Elder Penrose testified that the celestial relationship often became of a decidedly earthly character, and that pairs thus joined sometimes live together on earth. In the case of Mrs. Annie Armitage Park Hilton she was sealed for eternity to Dr. C. H. Park. She afterwards married William Hilton for time. On Dr. Park's death she sued for a widow's interest in the estate, despite her second marriage.

Millionaire's Poor Stomach.

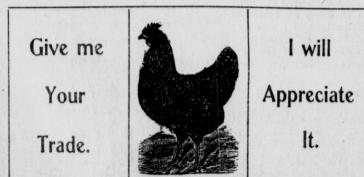

The worn-out stomach of the overfed millionaire is often paraded in the public press as a terrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who suffer from bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they are in far worse quarters than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which is a safe and effective remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus exciting appetite and inspiring perfect digestion. It tones and vitalizes the entire system and makes life worth living no matter what your age. Trial bottles, 25¢.

BILL TO GET TAYLOR.

Congressman Ollie James, of Kentucky,  
Introduces Measure in Congress.

Washington, D. C., Nov. 12.—Representative James, of Kentucky, introduced a most important bill today that is a direct result of the refusal of Gov. Durbin, of Indiana, to recognize Gov. Beckham's requisition for Gov. Taylor, of Kentucky. The bill provides that when one Governor refuses to recognize the requisition of another Governor, the latter shall have the right to file the requisition and indictment of affidavit charging an alleged crime with a United States circuit judge, who shall thereupon issue a warrant for the arrest of the fugitive.

The only question before the United States circuit judge shall be that of identity. Upon arrest under such proceedings the fugitive shall be remanded to the State demanding it. Provision is made for an appeal to the Supreme Court.

The James requisition bill is not at all likely to be passed by this Congress. The Republicans won't support it and many Democrats will hold that it violates the doctrine of State's rights.

THE OLD RELIABLE

Absolutely Pure.  
THERE IS NO SUBSTITUTE.

The Wicked Habit of Swearing.

The following article in regard to swearing, clipped from one of our exchanges applies to Earlington as well as other places:

One can not walk the streets, travel in the cars or stop at public places, and not be sadly touched by the amount of profanity he hears. Boys hardly old enough to talk plainly; young men just stepping over the threshold of active life; gray haired men bending over the grave, all are in fetters to this degrading habit. It matters little what the place or occasion, your ears are filled with profanity. We can understand how a man under severe provocation might give utterance to an oath. We understand if we sympathize with a passionate man, beset with little difficulties when he snaps out too energetically a word. But for a man in common every day conversation, calmly, even stupidly, to mix in a dozen or more profane expressions, there is no excuse; and yet it is the result of a habit which has grown upon the American

people and deserves the worst censure. No boy utters his first oath without something of a shudder. No man with any regard for the proprieties of society ever swears in the presence of ladies. It is more a matter of habit than almost any vice to which the people are addicted. Now, if those who have this wretched habit will break it, if only for a few days, and listen to others, they will see how senseless, how unmanly it is, and how little necessity there is for it.

It is the most gratuitous and uncompensating of all sins. It neither gives force to a remark, dignity to speech, nor impressiveness to thought. And as it is a habit as easily broken as formed. How degrading to humanity to hear the vile curses of a foul mouthed drunkard. The two vices generally go together, and one is as beastly and disgusting as the other.

Sherman Stock Co.

At the Theatre.

The Sherman Stock Company opened at Masonic Hall Monday evening for a week's sojourn, presenting the four act comedy, "My Friend From Arkansas," on Tuesday evening. The play was well presented, and last night "Down the Slope" was the bill, and if the first three productions by this company are to be taken as an criterion, Mt. Vernon theatre goers have a rare treat in store for themselves in the dramatic line for one week at least, and shall avail themselves of the opportunity offered. The members of the company are ladies and gentlemen, and it is a pleasure to have them on the stage. Monday afternoon a matinee will be given for the ladies and children, when each child will be admitted for 10 cents. A hand and watch will be given away Saturday night to holder of lucky number.

## MINING NOTES.

It is said that the Mineral & Mining Land Company will soon be ready to begin operations near Nebo. This is the company of which Mr. John C. Davidson, of Louisville, Ky., is at the head and which acquired a large body of coal lands in that vicinity several months ago.

Green Turner, a negro miner in the employ of the Providence Coal Company, at their shaft at Providence, was horribly burned in a powder explosion one day last week and died the following day as the result of his injuries. Turner had drilled a hole into the coal and was preparing to set it off. He had made his cartridge and was pouring powder into it from a full can, when it is supposed that a spark from his mining lamp ignited the powder and an explosion followed. His clothing was literally burned from his body and his flesh burned to a crisp. He suffered great agony until death relieved him. Turner was about fifty years of age.

A court decision at Sunbury, Pa., declares that in the eyes of the law the decision of the anthracite strike commission is not binding on either the miners or the operators. That it is only morally binding. This is the first time a court has been asked to pass upon the question.

Following the riotous conduct of the union miners at Coal Creek, Tenn., two weeks ago, warrants have been secured for the arrest of Vice President Elliott, of the Miners' Union, charging unlawfully forcing men out of the State. In the way of retaliation union men have secured warrants for several working miners on charge of carrying concealed weapons.

The Bell Coal and Mining Co., of Sturgis, Ky., made its first shipment of coal this week. This mine gives the promise of being one of the largest and best paying mines in the State.

Dr. G. W. Loran, of Hopkinsville, has accepted a proposition from the Nortonville Coal Co., to act as physician at their mines and has moved to Nortonville.

The miners of gold and lead see a car famine in sight and are forced to restrict mining on that account in the West.

The Henderson Mining and Manufacturing Company has leased its coal shaft near Henderson, Ky., to J. L. Nicholson for five years.

Differences between the workers and employers in the shale mining industry of Scotland have resulted in a suspension of 3,500 men. The dispute originated from a demand of the miners for an advance of one shilling a day.

Connellsville, Pa., Nov. 14.—The lowest week's record on coke production since 1868 was made last week, when the output dropped to 110,000 tons, a decrease of nearly 30,000 tons, and scarcely 45 per cent of the capacity of the region.

The remarkable item that appeared in this column last week about a proposed new mine at Henderson, to have a daily output of 100,000 tons, was clipped by one of the boys from a Henderson dispatch to a Louisville daily. The Bee's proof reader failed to see the item until it came out on the finished sheet, else the absurd statement would not have apparently received the Bee's endorsement.

## KENTUCKY PRESS ASSOCIATION

Will Be Welcome at St. Louis Any  
Time—Importance of Press  
Parliament Urged.

COMMISSIONER MAY VISIT MID-  
WINTER MEETING OF ASSOCIATION

After the meeting of the Executive Committee of the Kentucky Press Association on Nov. 7, the president wrote to the Exposition authorities notifying of the decision of Kentucky newspaper men to stand by Kentucky and Kentucky day at the Fair. He told of the mid-winter meeting of the Association to be held on Dec. 11 at the Galt House, Louisville and invited Commissioner Williams or some accredited representative of the Fair management to attend that meeting and, announced that a committee from the Association would visit St. Louis about Dec. 1, for the purpose of investigating accommodations and courtesies to be had for the Press Association party during the week of Kentucky Day, which day falls on June 2 next.

President Moore yesterday received reply from the Commissioner, as follows:

St. Louis, U. S. A., Nov. 17, 1903.  
Hon. Paul M. Moore,  
President Kentucky Press Ass'n.  
Erlington, Ky.

Dear Mr. Moore:

I thank you cordially for your letter of Nov. 17, 1903. While I regret that the Kentucky Press Association will not hold its next annual meeting in St. Louis during the World's Press Parliament Week, we will be glad to have them there at any time. I trust that you will see that a large and representative delegation will be present at the Press Parliament where will be assembled the most notable gathering of newspaper men from every country in the world.

I should be glad to attend the mid-winter meeting of your association if it is possible for me to get away at that time.

Please call upon me when you are in St. Louis and give me the privilege of showing whatever courtesies to you that may be in my power. With personal regards, I am, dear Mr. Moore,

Very truly and fraternally yours,  
WALTER WILLIAMS,  
Commissioner to the Foreign Press.

The committee, consisting of Harry Sommers, Elizabethtown News; R. W. Brown, Louisville Times, and T. C. Underwood, Hopkinsville New Era, to arrange program for the mid-winter meeting is busily making arrangements for a most interesting session. It is not the best time of year for newspaper men to attend a meeting, but there are special reasons important to every newspaper man in Kentucky, why it should be held at that time. A full attendance is urged.

## TO TAKE PICTURES IN THIS COUNTY.

Kentucky Exhibit Association Appoints  
an Official Photographer to get  
Views for World's Fair.

J. L. Willingham, of Dawson Springs, has been appointed Official World's Fair Photographer by the Kentucky Exhibit Association for the purpose of now taking pictures to be shown in the Kentucky Building and in the displays to be made by the State of her products and resources in the different exhibit palaces of the Exposition grounds. Views are to be made of all historical points in the county, while pictures peculiar to each class are to be taken for the mineral exhibit, the agricultural display, the fruit exhibit, the display of forestry, the educational exhibit, the live stock display, etc., etc.

Special attention is to be given the schools of the State. The Kentucky Exhibit Association has pictures of many school buildings, with the pupils standing or sitting in front, as it is possible to secure and our Official Photographer will give a great deal of his time to this end of the work. The educational exhibit of Kentucky at the World's Fair is to be shown in photography the progress made since the school system was inaugurated in the State in 1829. Teachers should not wait to be visited by the photographer, but should notify him at once when they are to be ready to have pictures of their schools taken.

## Kentucky Feudists Emigrating.

It is a happy fact that when the feudists move out of their Kentucky and West Virginia mountains they do not carry their feuds with them. The entire generation bearing the name of Jett are gathering up their slouch hats and sunbonnets, shouldering their rifles, calling together their "dawgs" and starting for Indiana and other hospitable regions. They are "disgraced" because one of the family is sentenced to be hanged. Mountain honor has its vulnerable points. Shooting an enemy in the back does not tarnish it, but a hanging does.

Some time ago the McCoys migrated to the neighborhood of Puget Sound. Still the outgoing continues, but in the new habitations they are choosing the feuds is no more. It dies when it breathes the low land air. Some 200 years ago in Scotland the battles of the Highland clans made material for romantic fiction and poetry. But our age, with a closer vein of similar human characteristics and with something of the same surroundings, refuses to find Rob Roy and Rhuherick Dhu in the highlanders of the Blue Ridge. In the first place, they disdain to be picturesque. Without feathers and pliroches they fail to fulfill our artistic demands. Every thing depends on glamor in these matters, and the Hatfields, McCoys and other clans have neglected to stock up with glamor. They are forehandled only in amusement and plug tobacco. Transplanted to a soil less wild, they will soon be swallowed up in the millions who haven't time to be insulted and whose family pride becomes only a matter of lending each other money.—Globe-Democrat.

Nortonville, Ky., Nov. 16.—An Illinois Central engineer ignored the signals at the Louisville & Nashville crossing here last night and ran into the derail while going at a high rate of speed. As a result the engine and five loaded cars left the track. Fortunately the wreck occurred at the siding, and no material delay was caused to traffic, though it required twenty-four hours to clear the side track.

Brakeman Will Meacham has resigned and will seek employment on some other road.

Artie Bell who formerly worked on the N. & D. is now brakeman on the Henderson Division.

Brakeman C. E. Courtney has been promoted and is now con-

ductor.

Switchman Larmouth of the third yard has been transferred and is now in the day yard.

In the current issue of the Railway Age there appears the following paragraph which will be of interest here:

"T. E. Brooks, General Superintendent of the Louisville & Nashville, will, it is reported, move his office from Nashville to Columbia, Tenn. He will locate in the new passenger station, just completed at a cost of about \$75,000."

From the statement of an officer of the Louisville & Nashville Railway the above is correct in a measure, although not entirely so. There is very small probability of Superintendent Brooks' offices being moved to Columbia, but it is more likely that the dispatchers' offices of the Louisville & Nashville will be transferred from Nashville to that place.

Indianapolis, Ind., Nov. 14.—Coroner Tutewiler rendered his verdict today on the Big Four wreck which occurred here Oct. 13. The coroner blames B. C. Byers, the chief train dispatcher at Kankakee, who, he says, failed to notify the Indianapolis yardmaster that the special train was coming. Sixteen people were killed in the wreck, fifteen of whom were Purdue students.

Mr. Graham, of Allensville, who has been working at Guthrie has accepted a position in the depot at this place as ticket agent.

Mr. W. K. Griffin is one of the best dispatchers on the line and some of the engineers say he can make the smokiest meeting points that ever happened.

Chief Dispatcher E. L. Wise was in Madisonville one day this week on business.

W. G. Wright chief clerk to Foreman L. H. O'Brien is considered a truthful man by Judge Cowell and other friends yet he tells such a wonderful story of their enormous amount of hickory nuts secured in one day by John Carnehan and himself that one has occasion to doubt the statement. Walter and John went to Pond river bottoms and returned the same day with seven (7) bran sacks full of scaly barks. How does that sound?

The Special R. R. and Coal edition will reach the railroad boys on Thanksgiving day and we feel sure that each and every one who receive a copy will appreciate it and tell their friends how good it is.

W. F. Sheridan contemplates visiting his Kentucky friends in a few weeks if he can so arrange. We would all be glad to see him.

H. W. McKeown, who formerly worked as dispatcher at this place, has accepted an offer from a railroad company in Mexico and is now in that country trying to learn the "greaser" language.

Nortonville, Ky., Nov. 16.—

An Illinois Central engineer ignored the signals at the Louisville & Nashville crossing here last night and ran into the derail while going at a high rate of speed. As a result the engine and five loaded cars left the track.

Fortunately the wreck occurred at the siding, and no material delay was caused to traffic, though it required twenty-four hours to clear the side track.

Brakeman Will Meacham has resigned and will seek employment on some other road.

Artie Bell who formerly worked on the N. & D. is now brakeman on the Henderson Division.

Brakeman C. E. Courtney has been promoted and is now con-

ductor.

## NEGROES IN BAD PLIGHT.

Went From Georgia to Liberia to Starve and Die.

MOVEMENT ON FOOT  
TO BRING THEM BACK.

Valedictorians, Ga., Nov. 13.—There is a movement on foot here to bring back from Liberia the Irwin county negroes who last February emigrated to that country.

The horrible predicament of these negroes was described in a letter from the United States Minister resident and Consul General at Monroe to Hon. John Hay, Secretary of State, Washington, D. C., and transmitted by him to Congresswoman Branch of Georgia.

The report of Minister Lyons to Secretary Hay is as follows:

"Diplomatic Series No. 11. Legislation of the United States, Monroe, Liberia, Sept. 23, 1903.—The Hon. John Hay, Secretary of State, Washington.—Sir: I have the honor to inform you that in the month of February in the present year a party of 56 colored persons, consisting of males and females and children, left Irwin county, Ga., as emigrants for Monroevia, Liberia, under the leadership of one B. J. Scott.

"Upon their arrival the Liberia Government did its best to assist them in getting a living, giving of the climate and in supplying them with some food until the hand which had been given them could produce something for their sustenance.

"Since then, however, twenty of the number have died at Cheesemanburg, the place assiduously used by the Government. For the lack of homes they were all put in a house of two rooms, where they died, one after the other, with fever, from want of food and medicine.

"Thirty-six of this number still remain in a sickly and destitute condition. Sixteen are still at Cheesemanburg. Twenty-two have returned to the United States. There are now, however, still homeless, but of these, will return to the United States by the first English steamer to Liverpool, on or about the 1st of October, 1903, their transportation having been arranged by friends in the United States.

"There being no provision for relief in cases of this kind we had to help them from our private purse. We soon, however, discovered that we could not give much charity to 22 persons for any length of time, for food is scarce and the prices are enormous.

"Owing to Your Excellency, to the agitation now going on in the United States on the subject of negro emigration to Liberia by irresponsible persons, whose literature has wide circulation among the innocent and poorly informed, the negro question becomes one of gravity for your consideration of both governments.

"I shall, in a separate dispatch, furnish you with a copy of the letter to the Hon. John Hay, Secretary of State, and the result of an interview with his excellency, the President, and with other members of the Cabinet.

"I have the honor to be, sir, your obedient servant,

ERNEST LYON, M. R. and C. G."

### Something to Remember.

The following is a list of people you want to miss:

The man who shoves in.

The man who shucks oysters.

The man who always growls.

The man with the "hot air."

The man with an ax to grind.

The man with a woe to find.

The man who forever brags.

The man who is all self-made.

The man who never advertises.

The man with an ancient kid.

The man who never reads the newspapers.

The man who says advertising don't pay.

### Quer Beggar Boys of Calcutta.

Of all the street arabs of the world's big cities, those of Calcutta are the most peculiar in their ways.

The majority of the Calcutta arabs live on the streets, and seldom know the shelter of a roof. Late at night, when the police go along the streets they will find the walks on both sides of him lined with the prostrate forms of sleeping vagabonds, most of them boys.

When the coolie boy of Calcutta is old enough to walk, he is shoved out into the world to earn his own living.

Usually he begins by begging. These boy beggars have peculiar ways of plying their trade. Almost naked, they will run beside a car or an omnibus containing white men, crying:

"Bucksess, sahib; bucksess, sahib; no go mother, sahib; no go father, sahib; no go aunt or uncle, sahib; no go brother or sister, sahib; me poor orphan, sahib; me very hungry, sahib; no go rice, no go banana, sahib; bucksess, sahib."

And all the time he will be slapping his stomach to signify its emptiness. Some boys have done this so long that on their right sides they have large, round spots where the skin has become toughened from continual slapping, and is as hard as the palm of a laboring man. They have a peculiar way of striking with their hands which gives the blow a hollow sound, like hitting an empty hand.

In the big markets of Calcutta you find crowds of boys who carry large empty baskets on their turbanned heads. They earn their living by carrying your purchases for you while you shop. Almost all the traders in the stalls began their career in that manner.

### JUST WHAT YOU NEED.

Chamberlain's Stomach and Liver Tablets.

When you feel dull after eating. When you have no appetite.

When you have a bad taste in the mouth.

When your liver is torpid.

When your bowels are constipated.

When you have a headache.

When you have indigestion.

They will improve your appetite, cleanse and invigorate your stomach and regulate your liver and bowels.

### ONLY MAN ESCAPED IS CRAZY.

Terrible Casualties in Wreck at Kentwood.

—Thirty Dead.

New Orleans, Nov. 15.—Fifteen negroes were injured in an Illinois Central Railroad wreck at Kentwood. They were brought to Charity Hospital today and three of them died soon after arriving here. This makes a total of twenty-eight negro men dead, one negro woman killed and Andrew C. Riser, foreman of carpenters, the only white fatally injured, a total of thirty deaths.

The injured list foots up eighteen. Larry Hawthorne, the only negro who escaped from the coach, has become demented as a result of the shock. The wreck has been cleared away.

The responsibility for the accident will be hard to figure out. The first train had passed through Kentwood in the last five minutes behind and the two trains were virtually running on each other's time. The engineer of the last train claimed that he had orders for a clear track to Chataway, while the operator at Tangipahoa claims he signaled the train to stop, intending to hold her ten minutes, but she went on and struck the train ahead.

He Could Hardly Get Up.

P. H. Duffy, of Ashley, Ill., writes: "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I am a man very sensitive, but now I am in such a shape that I could hardly get up when once down."
